

## Cederroth Eye Wash Bottle

A compact dust and water protected Eye Wash Cabinet. Includes two bottles of Cederroth Eye Wash. Easy to fit even in small spaces. Transparent lid for high visibility. Bottles will open automatically when twisted out of the brackets to enable immediate rinsing.

### Target group

Perfect for workplaces that get dusty and dirty, for workplaces with high risk that need many bottles or when space is limited.

### Buffered eye wash

Cederroth Eye Wash is intended for rinsing away splashes of corrosive alkalines and acids as well as dust and dirt. Cederroth's buffered eye wash has a neutralising effect on alkali and acid splashes. The effect is generally stronger on alkalis than acids.

Cederroth Eye Wash works to neutralise the eye's pH value, i.e. it has a neutralising effect on alkali or acid splashes, giving a quicker result than a normal sodium chloride solution. The effect is generally stronger on alkalis than acids. Shelf life of 4.5 years. If you have an accident with a substance that contains calcium (for example, cement, concrete or lime), you can safely rinse with Cederroth Eye Wash as it is 100% phosphate-free. This ensures that the eye is rinsed as effectively as possible.

### TECHNICAL SPECIFICATIONS
