

Viking immersion suit PS2007

PS2007 is a neoprene immersion suit with built-in buoyancy. The built-in buoyancy gives excellent freeboard and ensures that the suit can be used without a lifejacket. This is an advantage in emergency situations with little time to put on a lifejacket.

Features

The suit is made of highly flexible, high quality neoprene to ensure easy donning and fit. This also gives the product a longer lifespan. The suit has extended zipper providing the suit a better in-water performance and ensures quick donning. The extended zipper provides more comfort for the user and minimizes water ingress.

The yellow colour ensures high visibility. Some of the main features are integrated neoprene boots with rubber soles, three fingered neoprene gloves, buddy line, lifting becket and a SOLAS approved emergency light. All suits are produced in-house according to stringent manufacturing requirements.

Application areas

- Cargo vessels
- Fishing vessels
- Navy
- Offshore personnel

Design features

- Lifting becket with snap hook and covered D-ring on breast
- Buddy line
- Semi-integrated neoprene gloves
- SOLAS approved emergency light
- Extended zipper
- Whistle
- Comes in a bag
