

## Secumar Alpha 275N Window Neon Life Jacket

Almost 100% more buoyant compared to the Alpha 150. The Secumar Windows system: you can see from the outside if the inflation machine is ready for use. You can also see on the outside if the CO<sub>2</sub> cartridge is full.

### Applications

- water board authorities
- customs
- police
- locks
- dock workers
- inland waterways
- hydraulic engineering
- dredging
- underground engineering
- sewerage works
- stevedoring

### Features

- the closure is from Secumar Click. Only when you press the two red buttons, the lock will open. Opening by accident, for example, is prevented
- improved fit so that the life jacket is better accepted by the carrier and thus often worn even compared to the Alpha 150
- float system: signal orange float in navy blue protective, patented folding
- standard equipment: storage pouch with zipper, inspection window, storage box for name, cruciate-loops, washable and removable fleece collar, whistle and storage bag
